The object and purpose of the Association shall be the betterment of the health and welfare of mankind through the improvement of the environment. This shall be done by sponsoring state and regional meetings and publications, by developing methods of measuring and evaluating achievements in environmental health, the establishment of a central point of reference and education material for the membership, the procurement of cooperation with other agencies and organizations, and such other activities as will lead to the greater efficiency and professional growth of the membership.

Publication Information
The Ohio Journal of Environmental Health is published by the Ohio Environmental Health Association (PO Box 234, Columbus, OH 43216-0234). A one year subscription, without membership, is available at a cost of $60.

The appearance of advertising in this publication does not necessarily include its endorsement.

To include articles or other materials for publication, contact: Adam Howard, Dustin Kent, or Tracy Buchanan

President’s Message

Garrett Guillozet, MPA, R.S., REHS, AEMT
Franklin County Public Health

The State of Our Association:

As we enter into another year of working towards furthering environmental public health in Ohio, it is important to look back at our past. Our association, not unlike others across the state, has experienced various successes and shortcomings. Our membership and finances have fluctuated over the years. However, I am pleased to inform you that we continue to see membership improve year after year, and our finances remain stable. Our membership currently stands at just over 600 members, and the board has worked hard over the last several years to ensure a cash reserve to cover all of our liabilities.

Additionally, we have worked hard to ensure that our voices and concerns are being heard, and that common sense solutions prevail. This work is never finished. However, it is understood that this work cannot occur without hearing concerns from our members. OEHA is more than an association that exists to put on conferences; we exist to further our goal of protecting and promoting our profession. This goal can only be accomplished with strategic input and direction from our members. Through your input, we have helped to provide direct feedback on various pieces of legislation, rules, and program guidance. While not all of our committees are active on a regular basis, they are filled with many of you who specialize in one program or another. These committees are a valuable resource to the association, board, and our lobbyist. Often times, as politics go, we need a quick turnaround on information. I cannot understate how thankful we are to have members who are willing to serve and quickly respond when called upon.

As preparations are under way for our 73rd Annual Education Conference, I cannot help but to have a great deal of appreciation for our members across the state. The AEC and District Conferences require a great amount of preparation and planning. Our Vice President and District Directors work hard to provide us with meaningful and insightful conferences. The planning committees work to solicit engaging speakers on a wide variety of topics. As always, I encourage you to provide speaker suggestions and topics to the planning committee for consideration. While we work hard to obtain external speakers, I encourage you to speak at the AEC or your district conference. Many of us have stories, skills, and tools that are valuable and the conferences are a great platform to share this information!

In addition to our conferences, I am pleased to announce that we now have a new section on our website to share information among our members. The OEHA Program Sharing section, found under the Members tab on our website, will be used to share guidance documents, policies, tools, resolutions, and training information for a wide variety of topics and programs. All across the state, there are members who have created excellent support documents, and our hope is that we can build a database to share these items with our membership. We are all in this together, and through the OEHA Program Sharing site, I hope can work to strengthen all of our programs across the state. I encourage you to
submit these items to us via info@ohieha.org.

Many times, you hear the board speak about our lobbying efforts at the statehouse through our lobbying firm. We have worked hard to keep members engaged and to solicit ideas, questions, and concerns that can be addressed via our lobbyists. However, more often than not, when we solicit this information, very little is received by the board. As we continue to engage the new administration and prepare for the next state budget, now is the time to start to solidify our position, and work to introduce any necessary changes that are desired by our members. As has been mentioned, please be sure to share your concerns regarding laws or rules with your district director, or by emailing the board at info@ohioeha.org.

In closing, as we move toward the AEC, I want to remind you that we will be voting for new board officers. This year, we will be voting for President, Vice President, and Treasurer at the AEC. If you are interested in serving as an elected officer of the board, or would like to nominate a member, please email us at info@ohioeha.org.

It has been a privilege to serve as president, and I look forward to seeing you all at the AEC.

-Garrett A. Guillozet, MPA, RS/REHS, AEMT
Allow me to re-introduce myself. See, this is my second go as NW District Director. My last directorship took place 10 years ago. While many things have changed since then, some things have stayed the same. I have watched OEHA evolve from a mere membership group to a full-blown legislative power house. Membership has ebbed and flowed. The one thing that is constant is all our members’ passion for the profession of Environmental Public Health.

I am in my 20th year of Environmental Public Health. 15 years I have spent at the Delaware General Health District. While most of my time at DGHD has consisted of food safety inspections, I have taken on a new role in the last 2 years of becoming the primary organizer and developer of our educational programs in food protection and public safety.

Education and training are the key to success. That is why it is so vitally important to continue the support of OEHA so that we can educate our members and even non-members so they will be best equipped to perform their jobs. Conferences are more than just a place to get CEU’s. They are a place to make connections. Members branch out and network with others in the State to learn new and better ways of performing the day-to-day duties. OEHA is the one and only support group solely for Registered Sanitarians in the State of Ohio.

I could go on about how the NW planning committee is diligently at work to plan the NW Fall conference. But the NW planning committee does more than that. We talk about our successes, failures and on-going problems experienced in this unique field. Those conversations are what spark action on the OEHA Board.

OEHA does not act on the personal feelings of just one person. We act as a collective looking out for the best interest of our members in all decisions. While we can’t make 100% of the membership happy 100% of the time, we can do our best to advocate for the majority. Remember, OEHA Board members are all volunteers. There are many opportunities for you to get involved. I urge you to volunteer- give it a try! You won’t regret it.
FDA Food Code Section 4.703.11 (B)
“achieving a UTENSIL surface temperature of 71°C (160°F) as measured by an irreversible registering temperature indicator”

The FDA Requires a Dish Temperature of 71°C/160°F

WHY CHOOSE NORWECO?

- **SAVE TIME & MONEY**: No wait with Singulair Green; set your own schedule.

- **NEW PRODUCTS**: We think of it before you need it. Nitrogen reduction, phosphorus removal and water reuse systems available now.

- **INTEGRITY**: Tested and certified products backed by an experienced team of experts.
Environmental Health Fundamentals (SIT Class) to be offered at 2019 AEC

Don’t miss this year’s fundamentals course! The classes will be held during the Annual Education Conference at Doubletree Hotel in Worthington on April 11th & 12th, 2019. We believe this is an excellent opportunity for those currently studying for the RS exam or students considering taking the exam. The course will cover important topics of environmental public health aimed at preparing attendees for both their careers and the exam.

**New this year, SITs will be able to register to receive the official NEHA REHS/RS Study Guide 4th edition.** OEHA will have 30 books available at a discounted rate with class registration and attendance. Once supplies are gone we won’t have any more books for the year so sign up early!

What do attendees have to say?

- “I completed my bachelor’s degree quite a long time ago and just recently got a job with our county Environmental Health Dept. This was a great way to refresh my memory from those courses, as well as help me prepare for the exam” – 2018 Attendee
- “[T]hey were all very informative” – 2018 Attendee
- “I thought all sessions were beneficial” - 2018 Attendee
- “Overall, I thought the class was very helpful in getting to know what material was most important to study for the test” – 2017 Attendee
- “[S]peakers were awesome. [R]eally appreciate them helping all of us out” – 2017 Attendee
- “Class was well organized and very informative” - 2017 Attendee
- “Very helpful to have a good intro on a variety of topics” – 2016 Attendee
- “The speakers were very knowledgeable and helpful” – 2016 Attendee

---

**The Leader in Document Management Solutions**

*The most cost effective & efficient document management solutions*

- Healthcare • Government • Corporate
- Manufacturing • Legal

SC Strategic Solutions provided document management solutions for over a decade and has developed one of the most cost-effective and efficient solutions relating to records management in the industry. Our company:
- Takes total ownership of both the software and services rendered (nothing is outsourced)
- Offers a solution for all departments and document types that may encompass scanning, records management software, workflow and electronic forms
- Has significant understanding and experience with the DRC and works closely with the statute and historical society to ensure legal record compliance

**SCView Software Offers:**
- Instant Access to Records
- Unlimited Tree Storage
- Web-Based Access
- Disaster Recovery
- Document Security with Audit Trail
- Electronic Forms & Workflow
- Electronic Signature
- Full Text Search (OCR)
- User Friendly Interface
- Integration Capabilities
- HIPAA/State/Federal Compliance
- Affordable Price Structure

**Additional Benefits:**
- Secure Document Storage
- Secure Document Shredding
- Fast, efficient process for the conversion of existing paper records to digital archives, improving access and reducing onsite storage and costs
- Solution for all federal document storage and retrieval to effectively store, manage, and safeguard your vital business records and documents.
- A local, convenient solution: Free Up Office Space • Reduce Costs • Keep Records in a Fireproof, Waterproof & Wind Safe Facility
- Safely and cost-effectively destroy unnecessary paper-based documents. One-time or recurring, our solutions are tailored to you.

**Scanning services for any format:**
- Standard Office Documents
- Times, Times New Roman Microfilm
- Microfilm (jackets or CCM)
- Large Format Documents/Drawings
- Destroy Unnecessary Documents: Protect confidential information • Reduce the risk of managing information that is no longer useful • Ensure compliance with regulations for information destruction
